3. INTRODUCTION / PREAMBLE

- 3.1 The Municipal council must give priority to the basic needs of the community, promote the social and economic development of the community and ensure that all residents and communities in the municipality have access to at least the minimum level of basic services in terms of section 152(1)(b) and 153(b) of the Constitution.
- 3.2 The municipality therefore adopts an indigent support policy which embodies an indigent support programme not only providing procedures and guidelines for the subsidisation of service charges to indigent households in its area of jurisdiction, but also to increase the quality of life of the beneficiaries by assisting them to exit from indigence.
- 3.3 The key purpose of an indigent subsidy policy is to ensure that households with no or lower income are not denied a reasonable service, and on the contrary the Municipality is not financially burdened with non-payment of services. Provided that grants are received and funds are available, the indigent subsidy policy should remain intact:
 - a) To achieve the purpose it is important to set a fair threshold level, and then to provide a fair subsidy of tariffs.

- b) The consumer, in order to qualify as an indigent, needs to complete the necessary documentation as required and agree to regulations and restrictions stipulated by Tokologo Municipality.

4. LEGAL FRAMEWORKS AND POLICIES

This policy is designed and implemented within the framework of the following legislation:

- 4.1 The Constitution of the RSA, 1996;
- 4.2 The Municipal Systems Act, 2000 (Act 32 of 2000);
- 4.3 The Municipal Finance Management Act, 2003 (Act 56 of 2003);
- 4.4 The Promotion of Access to Information Act, 2000 (Act 2 of 2000);
- 4.5 The Property Rates Act, 2004 (Act 6 of 2004).

5. POLICY BACKGROUND

The constitution recognizes Local Government as a distinct sphere of Government and as such also entitles it to a share of nationally raised revenue, which will enable it to perform its basic function of providing essential services to the community within its respective boundaries.

As a developmental institution, the municipality needs to commit to supporting measures that assist and empower its community. It is accepted that large sections of the community cannot exist without intervention and it is therefore the duty of the municipality to support and to ensure that citizens are able to access their constitutional right to have access to a basic level of services.

6. POLICY PRINCIPLES

It is against the above background that the municipality undertakes to promote the following principles:

- 6.1 To ensure that the Equitable Share received annually will be utilised for the benefit of the poor only and not to subsidise rates and services charges of those who can afford to pay;
- 6.2 To link this policy with the municipality's IDP, local economic development (LED) initiatives and poverty alleviation programmes;
- 6.3 To promote an integrated approach to free basic service delivery; and
- 6.4 To engage the community in the development and implementation of this policy

7. POLICY OBJECTIVES

In support of the above principles the objective of this policy will be to ensure the following:

- 7.1 The provision of basic services to the community in a sustainable manner within the financial and administrative capacity of the Council;
- 7.2 The financial sustainability of free basic services through the determination of appropriate tariffs that contribute to such sustainability through cross subsidisation;
- 7.3 Establishment of a framework for the identification and management of indigent households including a socio-economic analysis where necessary and an exit strategy;
- 7.4 The provision of procedures and guidelines for the subsidisation of basic charges and the provision of free basic energy to indigent households; and
- 7.5 To ensure co-operative governance with other spheres of government.

8. SCOPE OF APPLICATION

Grants-in-aid may within the financial ability of the Municipality be allocated to account holders who receive electricity, water, sewerage or refuse removal services from the Municipality, in respect of charges payable to the Municipality for such services. Tenants should have their own municipal accounts for the services mentioned to qualify for the subsidy

These grants for households may be allocated if an account holder can submit proof that the household has no income or a verified total gross monthly income equals to or less than the sum of 2 (two) state funded social pension grants.

Only 1 (one) application per account holder in respect of one property shall qualify for consideration. A business, body association, club or governing body shall not qualify for consideration. The subsidy will apply to the account holders only. The subsidy will not apply in respect of account holders owning more than 1 (one) property. Tenants will also be subsidized on one property rented.

9. TARGETING APPROACH

The effective targeting of indigent households and the implementation of this policy will depend largely on the social analysis included in the IDP, the LED initiatives and other poverty relief programmes of the municipality. The socio-economic information and performance indicators contained in these documents must form the basis for the targeting of indigent households.

Against the background of such socio-economic analysis, the municipality must within its financial and institutional capacity decide which targeting approach or option should be applied.

Depending on capacity the municipality may apply any or a combination of the following as targeting methods:

Targeting approach	Application
1. Service levels	Lowest service levels normally in informal settlements and rural areas.
2. Service consumption	Metered services in urban and rural areas.
3. Property value	Applicable only to registered indigents in respect of subsidised or RDP housing to a value determined in addition to the R15000 in terms of the Property Rates Act, 2004.
4. Household income	Threshold determined in terms of socio-economic analysis.

5. Geographical (Zonal) targeting	Specific areas (rural or urban) where households are regarded as poor irrespective of service level.
