Explanatory notes on in year budget tables

Table C1 – This table gives a summary of the overall performance of Tokologo Local Municipality for the quarter ended March 2025 as well as a comparison of year to date actuals and year to date budget (January to March 2025) the following key aspects are included:

Financial Performance

Capital Expenditure and funding sources

Financial Position

Cash Flow

Creditors and Debtors analysis

Table C4- Cash flow Table C7 will not coincide with Table C4, because Table C4 is based on billed income. Revenue items that show a positive variance indicates that actual revenue year to date exceeds budgeted year to date, and where they show negative variances, it indicates that actual is less than budgeted on that specific revenue item.

Revenue

Electricity 69% negative variance: The municipality is collecting 69% more than what was budgeted for Sanitation 13% negative variance: The year to date budget is 13 % more than what has been actually billed to date

Refuse 58% negative variance: The year to date budget is 58% more than the year to date actual billing for refuse

Water 15% positive Variance: The year to date budget for water is 15% less than the actual billing to date

Expenditure

Employee related costs- negative variance 28%: The year to date budget expenditure on employee related costs is more than the actual expenditure to date

Bulk electricity – positive variance of 19%: The year to date budget on bulk purchases is less than the actual expenditure

Contracted services- positive variance (38%): The municipality is spending less on contracted services, the year to date actual is more than the year to date budget

Other Expenditure – positive variance of 10%: The year to date actual expenditure to date is less than the year to date budget, hence the negative variance on other expenditure

Table C5 - is a breakdown of the capital program in relation to capital expenditure by municipal vote (multi-year appropriations); capital expenditure by standard classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments.
Table C7 The budgeted cash flow statement is the first measurement in determining if municipality has enough cash and cash equivalent to fund its operations.
